## CIVIL SERVICE EXAMINATIONS.

Why not prepare yourself to enter the employment of the United States government? The entrance examinations are easy and there is absolutely no "pull" or "influence" that will enable any one to secure a position ahead of you if you have made the highest grade and no one can dismiss you from the service without good cause. The work is light and the pay good, ranging from \$800 to \$1,800 per year with one month's vacation on full pay.

The full business course of The Lamson Business college with shorthand and typewriting constitute a complete preparation for the best of these positions. This college now gives in its night school special work in copying rough draft and plain copying, reading addresses, systems of railway transportation and other subjects necessary for the railway mail clerk's examination which is to be held Nov. 30.

A thorough knowledge of the following subjects will prepare one for more than half of the thousands of positions in the gift of the U. S. government: Bookkeeping, spelling, arithmetic, letter-writing, grammar, penmanship, geography, reading addresses, copying and systems of railway transportation. You would be surprised how easy it is to secure the necessary preparation. You can secure it by attending The Lamson Business college night school every Monday, Wednesday and Friday nights. School from seven to nine.
